Company Profile

JINLIDA Company produce gabion mesh machine and gabion mesh production line. Since no machine like it existed before, our Jinlida gabion mesh machine has received its patents in China in 1999 and 2000 (Patent No. ZL99229381.2 and ZL00267044.5). It was developed by utilizing both homegrown technology and that from abroad. We have developed the machine from model LNWL-1, LNWL-2 to LNWL-3 during these years. We also have much international professional technical service experience both for machinery and gabion system construction.

Jinlida company focus on innovate, we have study and produce automatic gabion production line, it can make gabion box automatically from mesh weaving to edge winding gabion mesh sheet, this system will improve output and save labour force, and from now on we have sell a lot of this system, all the customers have good evaluation.

We warmly welcome inquiries from clients both Chinese and international. They will be met with a prompt and courteous response.
